#### Cytocare

Cytocare manufactured by Revitacare Laboratories is a unique collection of injectable skin boosters to cater for all skin types of all ages, both for men and women. All products contain just the right concentration of hyaluronic acid to treat fines and wrinkles without adding volume to the treated area. To boost skin's renewal even further they also contain powerful Rejuvenating Complex CT50 of carefully selected vitamins, antioxidants, minerals and amino acids to target specific skin problems of men and women. Cytocare is administered by micro-injections into superficial or middle dermis and can be used on the face, neck and back of hands. It provides intense hydration, restores radiance and improves elasticity. Excellent choice for safe, effective and non invasive face rejuvenation. Cytocare S Line contains 18 mg/ml of non-cross linked hyaluronic acid and is the first skin booster sterilized by aseptic filtration and offered in a pre-filled syringe to preserve the integrity of its components. It provides immediate lightening effect and rejuvenates the skin from the inside. CYTOCARE 715 C Line redensifies the skin for a plumping effect. Skin looks naturally softer and brighter thanks to anti-aging properties.
