Product Description

Factory Price Top Quality 304 Stainless Steel Blunt Cannula All Sizes 18g-30g Blunt Needle

A blunt cannula allows blood vessels to be ‘pushed aside’ as the microcannula moves around the tissue under the skin instead of piercing the blood vessels as with traditional needles. Safety from injuring nerves Safety from injuring blood vessels. Safety from injuring glands and ducts. Better Results: you can get a smoother and wider fanning result. Better Results: you can usually have less bruising with your patients. Better Pain management: Patients usually feel less pain with this technique.
