

Cog 6d 4d 3d Polydioxanone Screw Pdo Mono Thread Lift 18g To 30g

Our Product Introduction

Basic Information

- Brand Name: THREAD LIFT
- Certification: CE
- Minimum Order Quantity: 10 pcs
- Price: 0.5 dollars to 4 dollars
- Packaging Details: Sterile packaging
- Delivery Time: 1 to 5 days
- Payment Terms: T/T, Western Union, Credit Card
- Supply Ability: 50000 pcs/month

Product Specification

- Product Name: PDO PCL PLLA Thread Lift
- Type: Medical Absorbable Suture
- Function: Face Lift, Body Lift, Skin Tightening
- Size: 18g To 30g
- Material: Polydioxanone
- Needle Type: Sharp/Blunt Cannula
- Highlight: **Polydioxanone mono screw threads, mono screw threads 18g, Polydioxanone pdo mono thread lift**

Product Description

Pdo Thread Eye Brow Barb Screw Mono Hilos Tensore Korea Nose Lifting Facial Thread Tornado Cog 6d 4d 3d Face Lift

What is PDO Thread Lift?

PDO Thread Lift is the latest and revolutionary treatment for skin tightening and lifting as well as V-shaping the face. These threads are made of PDO (polydioxanone) material which is similar to the threads used in surgical stitches. The threads are absorbable and therefore will be reabsorbed in 4-6 months time leaving nothing behind but the skin structure created which continues to hold for another 15-24 months.

Areas that can be treated include lifting of eye brow, cheeks, corner of the mouth, nasolabial folds fold and neck. With correct placement of the threads, you shall notice a more defined jawlines and the face appear more "V" shaped. Since absorbable sutures are used, there will not be any foreign body in the skin after 6 months.

After cleansing and sterilization of the face, anesthetic in the form of cream or direct injection can be given to reduce discomfort sensation. The doctor will choose the most appropriate type of threads and place it accordingly at various part of your face. The procedure takes about 30 minutes.

WE ACCEPT CUSTOMIZED
