Restructurer

it helps to prevent skin aging, reduce fine lines and wrinkles as well as repairing the components of the extracellular matrix.

Innoaesthetics Restructurer is a combination of antioxidants ingredients such as Ascorbic Acid, Glutathione, Superoxide Dismutase and Lipoic Acid, which significantly reduces the formation of free radicals and protects the skin tissue from this damage, whereas the content of Hyaluronic Acid enhances skin moisture. In addition, the active ingredients help to improve the production of typocollagen and regulates the synthesis of the element involved in skin nutrition. This formula also helps to even the skin tone and is especially good to use after the summer to restore your skin, recover the glow and attenuate dark spots.

Key benefits:

Restructuring

Anti-aging

Free radical scavenger

Balances uneven pigmentation

Prevents cell oxidation

Active ingredients:

Ascorbic Acid, Glutathione, Superoxide dismutase, Lipoic Acid, Hyaluronic Acid

Innoaesthetics, manufactured by Laboratorio Innoaesthetics, is an innovative portfolio of transdermal solutions along with dermo-cosmetics products to prevent and treat signs of skin ageing, while offering a daily skincare routine to optimize the results. The extensive portfolio is one of the main innovators within beauty and aesthetic professional. Innoaesthetics includes the perfect solutions for both professional cosmetologists, dermatologists, beauticians, as well as end-users that wishes to treat skin conditions with the help of Antiacne, Anti-ageing, Depigmenting, Moisturizing, Free Radicals Prevention, Solar Protection and Restructuring products.

Effects

Protects the skin from cell oxidation and the formation of free radicals. Improve fine lines and wrinkles. Restructure the dermal tissue. Reduces dark spots and balances uneven pigmentation. formulations have been conceived for transdermal delivery by the skin care professionals. Currently, many different application techniques can be used for transdermal drug delivery. They allow the various active ingredients to pass through the stratum corneum and reach the deeper layers of the skin. Active ingredients are released into the target area rapidly but in a gentle manner with no side-effects. TDS formulations are made without preservatives and are completely pure and sterile.
