Product Description

Cytocare 532 715 516 Hyaluronic Acid Dermal Fillers For Fine Lines & Wrinkles

Revitacare Cytocare Rejuvenating Complex 532 516 715 Hyaluronic Acid Injection Filler

DESCRIPTION

Cytocare manufactured by Revitacare Laboratories is a unique collection of injectable skin boosters to cater for all skin types of all ages, both for men and women. All products contain just the right concentration of hyaluronic acid to treat fines and wrinkles without adding volume to the treated area. To boost skin's renewal even further they also contain powerful Rejuvenating Complex CT50 of carefully selected vitamins, antioxidants, minerals and amino acids to target specific skin problems of men and women. Cytocare is administered by micro-injections into superficial or middle dermis and can be used on the face, neck and back of hands. It provides intense hydration, restores radiance and improves elasticity. Excellent choice for safe, effective and non invasive face rejuvenation.

Cytocare 516 contains 16 mg/ml of non-cross linked hyaluronic acid and is recommended for skin with the appearance of first signs of aging. It smooths fine lines and superficial wrinkles and provides ultimate hydration to the skin. It also restores radiance and elasticity keeping skin supple and younger looking. 50+ active ingredients of Rejuvenating Complex keep the skin nourished, moisturized and smooth.

Cytocare® 532 is a resorbable implant composed of hyaluronic acid and rejuvenating complex. Cytocare® 532 is designed to be injected into the mid-deep layer of the skin dermis to fight the skin's aging process and reduce fine lines and wrinkles. Cytocare® 532 also restores the hydration, tonicity and elasticity of the skin and improves radiance.

Cytocare® 516 is a resorbable implant composed of hyaluronic acid and rejuvenating complex. Cytocare® 516 is designed to be injected into the mid-deep layer of the skin dermis to treat early fine lines and increase tonicity and elasticity. Cytocare® 516 also restores skin hydration and improves radiance.

Cytocare 715 C Line is a meso-filler product designed to prevent premature aging by re-densifying the skin for a plumping effect. Cytocare 715 C Line contains a high concentration of hyaluronic acid (75mg), over 15 amino acids, and great anti-aging compounds like Carnosine that all help to block the aging process of the cells while activating the growth of new cells. The product should be injected into the mid-deep layer of the dermis to reduce fine lines, restore skin elasticity and replenish skin hydration leaving the skin softer, brighter and with a radiant glow. Treatments with Cytocare 715 C Line needs to be repeated every 3 months for the best results.

Product name	Cytocare 532 516 725
HA Content	16mg 32mg 75mg
Packing	5mlx10vials
ACTIVE INGREDIENTS	Hyaluronic acid, multivitamin complex
can keep	3 months
