Product Description

Korea Weight Loss Fat Dissolving Injections For Body Lipo Lab PPC Solution

What Is Lipo Lab PPC?

Lipo Lab is a safe and effective fat resolving product made of high-quality raw materials. Its main ingredient is an extremely purified PPC sodium deoxycholate which can boost metabolism, dissolve fat and increase the patient's energy levels.

How To Use Lipo Lab PPC?

1. Shake vials well to mix the deposited particles on the bottom.
2. In case of abdomen/waist, 0.15~0.2cc on a spot and move to next half an inch or a centimeter distant.
3. By doing so, you will consume a total of PPC 1~3 vials at a treatment depending on obesity degree and you are recommended to repeat this treatment 2~3 times at 15 days' interval, which will lead a patient to consume 1~2 boxes to complete a whole process of treatments.
4. This whole process will end up with reduction of 4~6 inches.
5. In case of other parts such as fatty armpit, upper arm and thigh, you are required to adjust(mostly diminish) quantity according to the obesity degree of the part to be used.

What is LIPO LAB ?

LIPO LAB is a product for melting subcutaneous fat. LIPO LAB is safe and effective. Lipo Lab has been developed in order to care the body more easily and quickly by selecting raw materials made in Germany which is known for safety, effectiveness and the

The Great Thing About PPC Solutions Reports

1. No need of anesthesia as it barely generates pain
2. More efficacious and easier treatment than liposuction surgery
3. Unlike existing methods such as mesotherapy which only reduces the size of fat cells, Lipo Lab PPC dissolves, destroys fat cells and exhausts them out of body through sweat, urine and internal combustion.
4. Cheaper costs than existing liposuction surgery
5. Effective for removing cellulites and enhances skin elasticity
6. Solves the obesity of specific parts where exercises cannot do

· PRODUCT ADVANTAGE ·

- ✓ **High purity PPC** (German origin : purity 99.8%)
- ✓ **Sodium Deoxycholate** (Japanese origin : purity 98%)
- ✓ **Particles of 50~70 nanomicros** (A size smaller than a cell)
- ✓ **Special Sterie Technology** (Odorless, non-pigmental, sterile technology)

By adopting German-origin raw material with the highest purity, Lipo Lab guarantees its safety & efficacy and enables clinics/hospitals to carry out more efficient and swift body-care programs. Lipo Lab has been designed and developed to stand a gamma-sterilized aseptic process under the pressure of 1,000 bars or higher, which eradicates the problem of storing it in refrigerator and the risk of probable infection, but makes it possible to keep it under normal temperatures.

■ Features of Lipo Lab

- | | | |
|--|--|---|
| ① No need of anesthesia it barely generates pain | ② More efficacious and easier treatment than liposuction surgery | ③ Cheaper costs than existing liposuction surgery |
| ④ Effective for removing cellulites and enhances skin elasticity | ⑤ Solves the obesity of specific parts where exercises cannot do | |

⑥ Gamma-irradiated Lipo Lab Solution secures safe treatment and raw material of 99.8% purity from Germany maximizes the efficacy of lipolysis

⑦ Such a simple treatment that barely bothers everyday life

⑧ Unlike existing methods such as mesotherapy which only reduces the size of fat cell, Lipo Lab PPC dissolves, destroys fat cell and exhausts them out of body through sweat, urine and internal combustion, which does not incur the so-called "yo-yo" phenomenon

· PRODUCT APPLICATION ·

Areas & Effects

Lipolysis is to use fat locator to accurately locate the fat layer, inject the lipolysis solution into the fat layer with a special lipolysis needle, so that the fat tissue dissolves quickly. After the operation, the body shape is natural and slim and the skin elasticity can be increased, which has a firming effect.
