## Product Description

### **Aqualyx Safe And Effective Low Price Supplying Aqualyx Weight Loss Slimming Fat Dissolving Injections Aqualyx**

Aqualyx is an injectable compound made from the deoxycholate family of acids. The product may also be called Motolese's Solution, named for the professor that introduced the drug.

The acids present in Aqualyx cause fat destruction in the body. Plastic surgeons use Aqualyx for body contouring. They may inject it into different areas of the body, such as the:

back  
chin  
hips  
knees  
stomach  
thighs

Mini order	one box
shipping time	3-5days
package	one box 10 bottle

Doctors may also use the substance to treat a condition called [pseudo-gynecomastia](#) in men. This causes extra fat tissue to grow in the chest area, giving the appearance of breasts.

When injected into the body, Aqualyx can reduce the appearance of fat to give a smoother, more contoured appearance.

While a person will see changes after one treatment, they'll usually require more than one treatment session to see maximum results.

**DESCRIPTION** Aqualyx Injections (10x8ml) is a revolutionary solution to lose weight in a tried and tested way. Aqualysis, the method of using the aqueous gel to remove excess fat, utilises a non surgical method to target fat cells to destroy them permanently. Aqualyx is completely biodegradable and biocompatible, using a slow-release sugar based system, to dissolve cellulite at the site of injection before it's passed along the body through the lymphatic and excretory system. What do I receive in the box? 10 x 8 ml vials of Aqualyx What are the Benefits of Aqualyx? Aqualyx is recommended for: Removing stubborn fat when exercise and diet cannot Eliminating cellulite and fatty deposits Treat pseudo-gynecomastia in men Suitable for all the following parts of the body: Thighs Knees Buttocks Hips Back
