Product Description

Moisturising Anti-aging Anti wrinkles remove mesotherapy filler 2ml Profhilos Dermal Filler What Is Profhilo

Profhilo® is an injectable anti-aging treatment made from hyaluronic acid (HA). It is a product that can bio-stimulate four types of collagen, elastin, and proliferate adipocytes (fat) stem cells to address these anti-aging issues naturally and effectively. The slow release of HA by Profhilo results in natural bio-remodeling of the skin and improved skin quality lasting for up to six months.

The Benefits of Profhilo

- Returns volume and firmness, and gives an overall lift
- Stimulates elastin to reduce skin laxity and improves your skin structure
- Stimulates 4 types of collagen growth through a bio-remodeling process
- Hydrates your skin

How Does Profhilo Work

Profhilo® boasts one of the highest concentrations of HA in the market (64mg / 2ml), which allows it to deeply boost the hydration of the skin and reverse aging and sagging skin, especially in the face, neck and hands with little-to-no downtime.

HA is hydrophilic which means that it draws and retains water in your body, thereby acting as a hydrator rather than a filler that only fills in wrinkles and plumps the skin temporarily.

Within 3-5 days, you can witness the firsthand transformation of tired and dull-looking skin to firm and luminous skin.

PROPHILO®

Bio-remodeling and
Improvement in
Skin Laxity via
5 injection points per side

Profhilo VS Fillers VS Skin Booster

Profhilo® is neither a filler nor a skin booster. Lesser sessions are required and it does more than just hydration.

product name	profhilo
packing	2ml
use	5 injection point per side

Who Is Suitable For Profhilo Treatments

Profhilo® is suitable for both men and women with mild to moderate signs of aging skin. It is highly recommended for patients aged 30-50 years who are looking for an effective method to hydrate their skin and improve skin laxity, elasticity, and fine lines. Generally, those above 25 years old can also benefit from this treatment.

For safety reasons, Profhilo is not recommended for patients who have/are:

Immunocompromised
Allergic to product ingredients
Have any infected skin area, such as acne or cold sores
Pregnant or breastfeeding women
