Product Description

Description

ReNTox 100 units is an innovative drug (botulinum toxin) type A Premium Class, developed by the South Korean company Pharma Research Bio. It is presented as a lyophilized white powder for injection in a colorless transparent vial.

BENEFITS:

3D effect: The patient should observe the effect from the 3rd day after administration, the duration of action is 6-8 months

Composition: the improved formula of the preparation does not contain: proteins, albumin, gelatin compared to other botulinum toxins.

Diffusion: has the lowest diffusion of all currently known botulinum toxins.

EFFECTIVENESS:

ReNTox guarantees high efficiency.

The fluctuation in potency is tightly controlled in the range of 91-115 units

ReNTox provides a precise and uniform effect at the time of injection, guaranteeing high patient satisfaction with the preparation

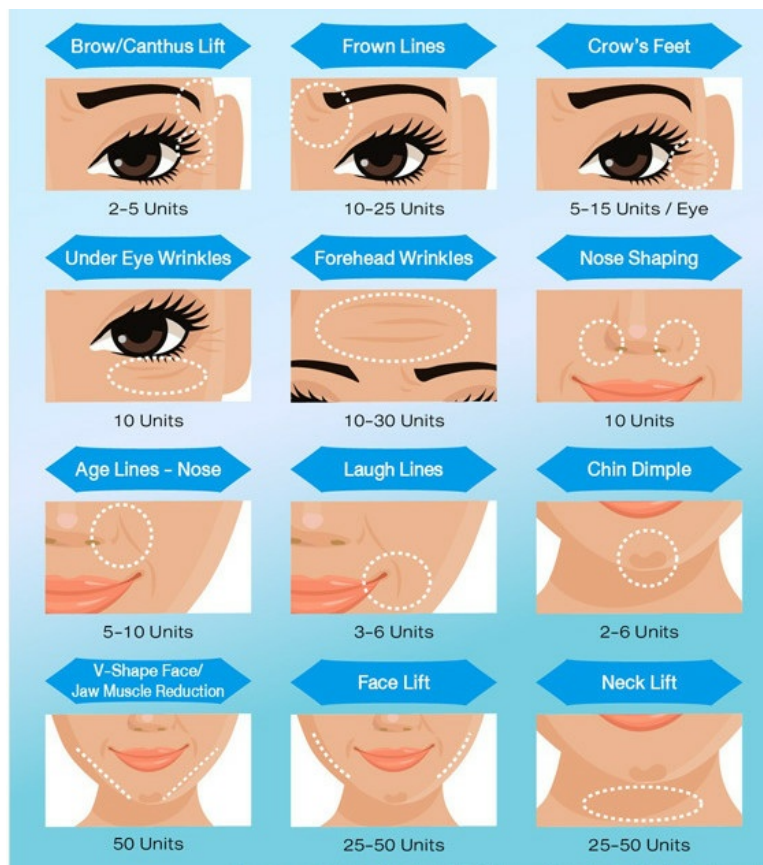

INDICATIONS:

- 1-Correction of mimic wrinkles
- 2-Spasm of the eyelids.
- 3-Spasm of the half-face
- 4-cervical dystonia (spastic torticollis)
- 5-Focal spasticity of the wrist and hand in post-stroke patients
- 6-paralytic strabismus (strabismus)
- 7-local muscle spasms in cerebral palsy in children 2 years of age and older

How does Allergan Botox work?

Allergan Botox acts by temporarily paralyzing the muscles. Therefore, people with such muscles or nerve problems benefit from it. Let's look a bit closer at how it works. Botox is inherited from neurotoxins. They work by targeting the nervous system and disrupting the mechanisms of nerve signaling to stimulate muscle contractions. This leads to muscles becoming temporarily paralyzed.
