Product Description

DERMAL FILLER

Over the years, our tissues naturally lose the youthful stores of fat and collagen needed for plump, smooth skin. As this process occurs, we may begin to see the development of sagging skin, fine lines, and deep wrinkles. Sun damage, smoking, weight fluctuations, and genetics accelerate these changes. While expensive over the counter creams and lotions can do little to improve these early signs of ageing, the Boston Center for Facial Rejuvenation offers patients a fast, noninvasive way to turn back the clock:

Treated areas

will:

- Ease deep facial lines
- Improve fine wrinkles
- Eliminate acne scars
- Plump the lips
- Camouflage puffiness under the eyes
- Restore facial volume and shape
- Establish facial symmetry
- Improve fine line around the mouth and cheeks

How does the treatment work?

The treatment can be done in 15 minutes but it can also take longer, depending on the area to be treated.
The professional in charge of your treatment injects the product using an ultra-thin needle under the surface of the skin. For fine lines, the product is injected at the surface of the skin. For marked wrinkles, the injection is made at a deeper level.
Please note that the injection of Juvéderm Ultra requires a medical gesture that can only be carried out by a doctor (doctor specialised in dermoesthetics, dermatologist or plastic surgeon).
