Radiesse 1ml Dermal Filler Injectable Collagen Remove Wrinkles Facials

Radiesse 3ml reshapes and fills the face. Radiesse consists of micro implants made of CaHA or hydroxyapatite microspheres, and works effectively in biodegradable liquid gel.

benefit

Improve the symmetry and protrusion of the lower jaw and chin to improve their surrounding area.

Beautify your face: correct bitter wrinkles, deep wrinkles, nasolabial folds, and lip corners..

Reduce irregular and bulging nose.

Restore the volume of the hollow cheeks.

Protocol - Radiesse 3ml

The doctor will massage the specific area with anesthesia cream to make the injection site fall asleep.

After treatment, there may be some effects, such as swelling or redness, which usually last for several hours to 1-2 days. After the meeting, you can immediately resume your activities.

Radiesse Dermal Fillers and Wrinkle Fillers Calcium Hydroxyapatite 1.5ml

Product Description

Product Information:

Radiesse lidocain 1x1.5 ml can be used to create specific contours on the chin and cheeks. Moderate to deeper wrinkles can be optimally treated with this product. **Radiesse Lidocain 1x1.5 ml** provides immediate volume build-up thanks to its watery gel consistency, which reduces wrinkles without delay or, ideally, makes them disappear completely. Besides immediate wrinkle correction, **Radiesse 1x1.5 ml** stimulates the body's own **collagen** synthesis. This effect is provided by the active ingredient calcium hydroxyapatite. The skin tissue produces more of its own **collagens** and thus ensures even firmer skin. The shapes of the treated facial areas are not only modelled and filled up with this product, but also benefit from lasting positive effects on the skin's appearance. This product is gradually broken down completely by the skin tissue. Thanks to the particularly long-lasting formulation, the results of this product remain visible for up to 18 months. As the ingredients of this product are naturally present in the body, allergic reactions or rejections are
