Product Description

What is the main composition of Kabelline?

- Deoxycholic acid, an FDA approved fat dissolving material and human bile acid, a metabolic byproduct of human intestine bacteria.

In the human body, deoxycholic acid is used in the emulsification of fats for the absorption in the intestine.

Deoxycholic acid.

- Deoxycholic acid is US FDA approved fat dissolving material and a human bile acid, a metabolic byproduct of human intestine bacteria.
- In the human body, deoxycholic acid is used in the emulsification of fats for the absorption in the intestine.

Contouring Serum for localized fat reduction

01 Upregulates Lipolysis, inhibits Lipogenesis

02 Can be applied to every parts that have fat

Efficacy

- 01 Effective Face & Body slimming solution
Synthetically derived Deoxycholic Acid dismantles cell membrane, preferentially of fat cells. And it effectively breaks down fat cells.

- 02 Anti-inflammation Kabelline inhibits inflammatory cytokine.

How Kabelline Works:

- Double effects induce lipolysis.
- Lipolysis by Deoxycholic acid
- Deoxycholic acid induces the destruction of normal fat cells in the face or body.

✓ Lipolysis by deoxycholic acid

Deoxycholic acid induces the destruction of normal fat cells in the face or body.

✓ Hypotonic lipodissolution by the unique formula of DexLevo

The unique formula of the solution also arouses the burst-out of the normal fat cells by leading to excessive absorption of water in the cells.

STEP 01
EFFECTIVELY
breaks down fat cells

How To Use Kabelline:

Kabelline can be infused with Hyaluron Pen, most recommended with 0.5ml disposable syringes.

Kabelline can be used on the chin, arms, legs, belly, hips, and all body parts (not to be used on the cheeks).

To remove fat, the patient will need two to three treatments approximately four weeks apart.

Results can be seen after 30 days.

Treatment Recommendation.

- 4~8mL of the solution can be applied to a localized obesity area.
- A single treatment consists of up to a maximum of 50 injections of 0.2mL with 1cm intervals.
- Up to 6 single treatments can be treated at the interval of about 1 month.
