Product Description

Korea sterile v line absorbable face twist mono barbed pdo nose lift thread tornado cog 3d 4d 6d pdo thread

PDO thread , it is a thread with no cones, thus no damage to the tissue. This is the same thread used in Cardiac and other surgeries as sutures, and thus it is very safe. Threads are implanted into the sub-dermal skin and stimulate the production of collagen, the skin becomes firmer, elastic and moisturised. The thread dissolves itself in couple of months but the effect last for 18-24 months. The thread can be applied to anywhere on the body, such as a flabby face, cheeks, eyebrows, to prevent eye bags, sagging neck skin, fine lines, wrinkles and lifting of breast.

Product Name	Pdo Mono Thread
Material	Pdo
The Type Of Needle	Sharp Needle, blunt needle, half blunt needle
Type	26G 27G 29G 30G
Needle Length	25mm 38mm 50mm 60mm 90mm

SPECIFICATION TABLE
