effecst	tloss fat dissolving weight slimming
usage	for beauty clinic spa
size	8ml x 10 bottles /box
type	injection for loss fat
usage	facial breast buttocks body arm loss fat
feature	loss fat loss weight dissolving

What is the kabelline

Kabelline Fat Reduction Solution is a contouring solution that helps to improve the appearance and profile of moderate to severe fat on the body. Kabelline products include the active ingredient synthetic deoxycholic acid. Deoxycholic acid aids in the breakdown of fat and its absorption; it is a naturally occurring body molecule. Fat is typically located in several key trouble areas like the chin, face, and abdomen. Kabelline is an injectable fat-reducing serum that helps dissolve fat in those areas mentioned above. This fat dissolver destroys fat directly and is hailed as one of the best sellers in South Korea. Kabelline destroys fat cells in the chin area, which results in a noticeable and satisfactory reduction of redundant fat cells. Once these adipocytes (fat cells) are destroyed, these cells no longer can store and accumulate fat. Thus further treatment is no longer required once your aesthetic goal has been targeted.

kabelline solution

Kabelline Fat Reduction Solution is a contouring solution that helps to improve the appearance and profile of moderate to severe fat on the body. Kabelline products include the active ingredient synthetic deoxycholic acid.What is the main composition of Kabelline? Deoxycholic acid. Deoxycholic acid is US FDA approved fat dissolving material and a human bile acid, a metabolic byproduct of human intestine bacteria.
