Product Description

KEY INGREDIENTS

Lemon Bottle's advanced formula includes a potent blend of natural ingredients, such as Bromelain, Riboflavin (Vitamin B2), and Lecithin.

Bromelain:

Derived from pineapples, Bromelain is a potent digestive enzyme with anti-obesity properties. It triggers fat breakdown and reduces inflammation.
Numerous research papers support its fat-dissolving abilities, and it's widely used in dietary supplements for weight loss.

Riboflavin:

Riboflavin, also known as Vitamin B2, plays a crucial role in converting carbs, proteins, and fats into energy.
It aids in fat oxidation and promotes fat metabolism while reducing post-treatment swelling for a more comfortable experience.

Lecithin:

Lecithin comes in animal and vegetable forms, with the latter being safer. Lemon Bottle uses zymogenic Lecithin to prevent allergies.
Its primary function is breaking down the initial fat cell membrane, akin to peeling layers, and dissolving fat cells effectively.
Beyond fat breakdown, Lecithin helps lower cholesterol levels and prevents atherosclerosis, making it a versatile ingredient in lipolysis.

The triumvirate of Bromelain, Riboflavin, and Lecithin in Lemon Bottle collaborates to revolutionize fat dissolution. Their combined capabilities target fat cells and enhance overall fat metabolism, ensuring a smoother and safer transformation on your path to a slimmer, sculpted you.

Specification :

Ingredients	Aesculus Hippocastanum Extract, Tyrosine, L-carnitine, Sodium Chloride, Juglans Regia (Walnut) Seed Extract, Thermus thermophilus
Application part	Body, face
