Product Description

Dermalax Dermal Filler Hyaluronic Acid 1.1ml For Anti Wrinkle

Dermalax is a Supreme & Pure monophasic, crosslinked HA soft tissue filler.

Dermalax works by adding volume to facial tissue, thus correcting wrinkles & folds, and restoring a smooth appearance to the face.

It keeps your skin moisturised, stimulates the regeneration of the aged cells, and supports Collagen & Elastin to maintain healthy skin.

This is made up of four new-generation Hyaluronic Acid filler injections that offer excellent quality and an even more excellent value. They were each designed to tackle different problems - from the swift correction of shallow wrinkles such as perioral and periorbital lines and worry lines to medium and deep folds (nasolabial folds) and eye bags. These dependable anti-aging skin fillers make that possible by adding natural-looking volume in the treated sites which successfully reshapes and improves facial contours and smoothens the skin. That same volumizing effect is the reason why these products can also be used for a long list of minimally invasive facial augmentation procedures (of the lips, nose, cheeks and the chin).

The unique HA-based formula of these exceptional products helps the skin to stay properly moisturized and even stimulates skin cells to go through a process of regeneration which boosts the production of Elastin and Collagen. Genoss has also used its Monophasic Blob Structure technology for the production of these miracle skin rejuvenating solutions in an effort (a very successful one at that) to deliver patients with durable, balanced results and a consistent and stable injection which make the overall treatment more effective and considerably minimizes pai--n during the injection procedure.
The fillers have a shelf life of 2 years and come in a sealed, properly marked boxed in prefilled single-use syringes. A special filler injection needle is also included in the package.

Application part	Facial wrinkles
Validity	24months
Packing unit	1 syringe/ 2x 27G needles.

	Dermalax Deep Plus
Component	HA 24mg/ml Lidocaine 0.3%
Application part	Facial wrinkles

Validity	24months
Packing unit	1syringe/ 2x 27G needles.

Dermalax Deep Plus is a dermal filler that contains BDDE cross-linked hyaluronic acid. It contains medium sized particles which can help to postpone the natural aging process, smooth wrinkles and to eliminate skin dryness and sagging.

This filler can be used together with the Hyaluron pen.

Benefits of Dermalax Deep Plus:

- Longer lasting due to the BDDE cross links
- Painless dermal filler
- Eliminate wrinkles
- Augment lips
- Increases elasticity
- Moisturizing

Where can I use Dermalax Deep Plus?

- Moderate to deep wrinkles
- Nasolabial folds
- Lips
- Cheeks
- Marionette lines
