Buy Elasty D Plus Dermal Filler Hyaluronic Acid Injection

Our Product Introduction

for more products please visit us on hadermal-filler.com

Basic Information

- Place of Origin: Korea
- Brand Name: Elasty
- Certification: CE
- Model Number: D G F
- Minimum Order Quantity: 1box
- Price: 38USD
- Packaging Details: box
- Delivery Time: 5-8 work days
- Payment Terms: T/T, Western Union, MoneyGram paypal ,credit card
- Supply Ability: 1000box/month

Product Specification

- Product Name: Elasty
- Type 1: ELASTY Plus D
- Type 2: ELASTY Plus F
- Type 3: ELASTY Plus G
- Content: HA 24mg/mL
- Lido: 0.3%
- Packing Size: 1x1ml
- Whatsapp: 008613315976231
- Highlight: Hyaluronic Acid Dermal Filler, Elasty D Plus Dermal Filler, Hyaluronic Acid injection

Product Description

What is hyaluronic acid?

Hyaluronic acid is a long, linear, high molecular weight, insoluble biopolymer and among the most abundant produced by all living organisms except algae. Hyaluronic acid is a natural product found in the body. It is a powerful tool for hydrating the skin and creating volume where there is tissue loss. Hyaluronic acid has the extraordinary ability to attract and retain water, weighing nearly a thousand times more than its own weight, and thus create volume and density, maintain the skin's optimal hydro balance, increase its elasticity and slow down the aging process.

ELASTY hyaluronic fillers are created through a patented process of binding free hyaluronic acid – PNET technology (preserved natural entanglement technology) in two phases:

In the first phase, PNET technology minimizes open cross-linked BDDE by inactivating and cleaning them.

In the second phase, PNET technology eliminates loose BDDEs. This ensures low levels of open cross-linked and uncross-linked BDDE, which increases product safety.

ELASTY natural hyaluronic fillers are the best in their class thanks to their patented PNET (preserved natural entanglement technology), which contributes to high elasticity and excellent cohesion. With minimal modifications, this dermal filler creates a natural-looking aesthetic correction and high patient satisfaction.

Product advantages:

High stage of purification of hyaluronic acid;
Minimal viscosity facilitates an easy injection of the gel;
Cross-linked fibers ensure a long-lasting correction effect;
Ideal for a thin skin and for sensitive skin areas;
Painless procedures.
High stage purification of hyaluronic acid
Minimal viscosity facilitates seamless injections
Cross-linked fibers ensure a long-lasting effect
Ideal for thin skin and for sensitive areas
Lido enables painless procedures

Product purpose

D plus Filler allows filling in moderate to deep wrinkles around eyes, on the forehead, between the eyebrows, cheeks, marionette lines on other areas of face. It gently enlarges natural volume of tissues.

Description and composition

The product is released in 1ml syringes filled with gel containing hyaluronic acid (24 mg/ml)

The Hyaluron Pen is a revolutionary device that uses pressure to inject Hyaluronic Acid into the skin – with no needles, no pain, and no downtime. The Hyaluron Pen is a no-needle, no-pain treatment that creates plump lips, fixes

smile lines, and create instant, long-lasting results. Not only is it needle-free and pain-free, but it also creates beautiful results in just minutes. Made in South Korea.

Application Area:

- Correction of the medium and deep wrinkles
- Correction of the nose and nasolabial folds
- Chin augmentation
- Forehead wrinkles smoothing
- Correction of glabella wrinkles

Main Ingredients:

HA(hyaluronic acid): 24mg/ml

Elasty G – dermal filler based on highly purified hyaluronic acid, developed by PNET (Preserved Natural Entanglement Technology). This technology is unique in increasing the cohesion coefficient of the molecules and, consequently, a stronger structure and longer lasting results. The product is used for the correction of medium and deep wrinkles and folds, volumizing and contouring.

Elasty G does not contain lido

Advantages of Elasty G

- High viscoelasticity
- Pronounced effect after the first treatment.
- Purified HA of non-animal origin
- Minimal risk of side effects, swelling, and allergic reactions
- Cross-linked HA fibres
- Suitable for thin and sensitive skin

Scope of Elasty G

- Correction of the fine lines and wrinkles
- Smoothing of the forehead wrinkles
- Nasal labial folds treatment
- Correction of neck wrinkles and wrinkles of periorbital area
- Lips augmentation

Composition (main ingredients)

HA 24 mg/ml

Duration

The effect of the procedure lasts from 8 to 12 months.
