Basic Information

- Place of Origin: Korea
- Brand Name: kabelline
- Model Number: 5*8ml
- Minimum Order Quantity: 1 box
- Price: 60\$ for one box
- Packaging Details: box
- Delivery Time: 3-5 days
- Payment Terms: Western Union
- Supply Ability: 100000 in 3days

Product Specification

- Use: Body, Breast, Neck, Face, Buttocks
- Package Size: 8ml*5
- Gender: Female
- Application Place: Face Body
- Deliver: By TNT/UPS/FedEX/DHL/EMS
- Key Words: Fat Dissolving
- Transport Package: Gift Box
- Effectiveness: Reduces Fat Cells
- Highlight: **Effective Fat Dissolver, Kabelline Fat Dissolver, Double Chin Fat Dissolver**

Product Description

What is It?

Kabelline is a specific formulation of deoxycholic acid. This is a naturally produced detergent, that when injected into the human body can dissolve fat. It has been used for decades but became popular after a specific formulation called "Kybella" got FDA approval for use in the under the chin area.

Is Kabelline safe?

Since no trials have been done on this product you can't say either way. In my personal opinion, anything that involves potential risks of nerve injury or your skin dying should not be done with some form of supervision. In addition, patient selection is something that is important. Not everyone is a candidate for Kabelline, Kybella, chin lipo, or any cosmetic treatment.

Does Kabelline work?

While Kybella is reserved for a moderate to severe double chin, based on the fact that Kabelline is a lower dosage, to begin with, I would suggest it would work best in people with very mild fat. Perhaps, this is why it worked so well in a country like Korea where it originated.
