Product Description

Product Description

Fillmed NCTF 135HA revitalizes, hydrates and refreshes the skin on various areas of the upper body and also redefines and smoothes facial features. It is particularly suitable for the treatment of stressed skin areas of the face, neck, décolleté, back of the hands and arms, where it can also reduce slight wrinkles and dehydration.

Fillmed NCTF 135 HA 10 vials is a mesotherapy treatment that helps to repair & rehydrate aging skin. It also optimizes skin health for more youthful and radiant skin. Formulated with a high concentration of hyaluronic acid, Fillmed NCTF 135 HA 10 allows for a more intense treatment. Fillmed® NCTF 135 HA 10 is a product of Filorga Laboratories.

Unique formulation: Fillmed® NCTF 135 HA combines 55 specially-chosen ingredients, including hyaluronic acid, 23 amino acids, 12 vitamins, 6 minerals, 6 coenzymes, 5 nucleic acids, and 2 reducing agents. This mixture of ingredients restores important aspects of the skin's function and encourages the production of proteins like collagen and elastin, allowing the skin to regain its elasticity and firmness. This specialized formula introduces important nutrients to the skin, leaving your patients looking radiant and youthful.

Long-lasting results: Fillmed® NCTF 135 HA is designed to deliver long-lasting results.

Package Contents

10 3ml vials of solution

Labels for traceability

1 package insert

Ingredients

- Non cross-linked hyaluronic acid: Hyaluronic acid replaces depleted moisture levels in the skin, adding hydration and redefining the dermis.
- 23 amino acids (including alanine, arginine, asparagine, aspartic acid, cystine, glutamine, glutamic acid, glycine, histidine, hydroxyproline, isoleucine, leucine, lysine, methionine, ornithine, phenylalanine, proline, serine, taurine, threonine, tryptophan, tyrosine, valine): These ingredients spur protein production, thereby stimulating elastin and collagen production.
- 12 vitamins, including ascorbic acid (vitamin C), biotin (vitamin B8), pantothenic calcium (vitamin B5), folic acid (vitamin B9), inositol (vitamin I), nicotinamide (vitamin B3), pyridoxine (vitamin B6), riboflavin (vitamin B2), thiamine (vitamin B1), tocopherol (vitamin E), retinol (vitamin A), vitamin B12: These ingredients stimulate other vital cell functions.
- 6 minerals, including calcium chloride, potassium chloride, magnesium sulphate, sodium acetate, sodium chloride, sodium dihydrogen phosphate: These ingredients prevent and repairs skin deficiencies.
- 6 Coenzymes, including TPP (cocarboxylase), CoA (coenzyme A), FAD (flavin adenine dinucleotide), NAD (nicotinamide adenine dinucleotide), NADP (nicotinamide adenine dinucleotide phosphate), UTP (uridine triphosphate): These ingredients cause bio-chemical reactions in the tissues.
- 5 nucleic acids, including deoxyadenosine, deoxycytidine, deoxyguanosine, deoxythymidine, 5-methylcytosine: These nucleic acids spur cellular communication, which is crucial for dermal health.
- Reducing agents e.g. ascorbic acid, glutathione: These reducing agents fight free radicals to ensure this product creates long-lasting effects.

Side Effects

Redness, bruising, swelling, or tenderness at site of injections

Mild edema and small hematomas

Granuloma

Hypersensitivity

Skin necrosis

Abscesses

Filorga M-HA 10 is composed of

– 3 single-dose vials 3 mL

– 3 syringes of 3 mL: 32G X 3/16

- 3 sampling needles: 18G ½ (1.2 X 40 mm)
