## Product Description

### Product Description :

## Dermalx Implant plus

**Dermalax is a monophasic filler based on highly purified hyaluronic acid. The product is produced by crosslinking HA molecules at low temperatures. Due to the improved stable structure, the filler is uniformly smoothly introduced into the dermal layers and gives a natural volume and long-lasting effect. Filler moisturizes the skin, stimulates cell regeneration, and promotes the production of collagen and elastin.**

Strengths of Dermalax:

no side effects

contains lido in the composition, the procedure is comfortable and painless

minimum residual BDDE

uniform distribution of the product

long action

the line contains preparations with different values of viscoelasticity and concentration of HA for solving specific problems

Dermalax Implant Plus the densest filler, which competes with plastic surgery and used to correct significant aesthetic deficiencies.

Scope of Dermalax Implant Plus:

correction of very deep wrinkles and folds

facial contour redefining

nose augmentation

volumization of the cheeks, middle of the face, cheekbones and temporal areas

The aesthetic effect lasts from 6 to 12 months.

Product composition: HA 24 mg/ml, Lido 0.3%

Dermalax Implant Plus

2 syringes × 1.1 ml per pack

Needle size: 27G

Specification :

weight	0.1kg
original	korea
Quantity-per-case	1.1mlx2
content	24mg

## Dermalax Deep

Dermalax is a highly purified dermal monophasic hyaluronic acid filler. The product is obtained by low-temperature cross-linking of hyaluronic acid molecules. Filler has a stable structure, which ensures uniform, smooth introduction, and natural results of the procedure for a long time.

Dermalax filler helps moisturize the skin, regenerate cells and actively produce collagen and elastin.

Strengths of Dermalax:

no side effects

comfort and painlessness of the procedures, thanks to the presence of leaders in the composition

minimum residual BDDE

smooth and even extrusion force provides easier injection and satisfying results.

prolonged effect

in the line, there are products with different values of viscosity and concentration of hyaluronic acid for solving specific problems

Dermalax Deep Plus is great for correcting moderate and deep skin defects.

Scope of Dermalax Deep Plus:

correction of deep wrinkles and folds (on the forehead, between the eyebrows)

correction of nasolabial folds

forehead augmentation

lip contouring

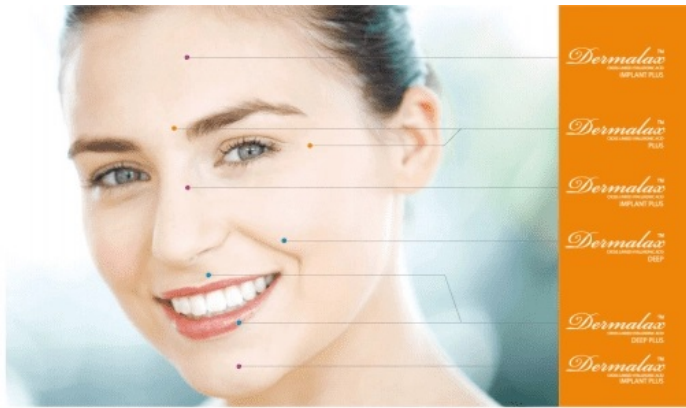

The aesthetic effect lasts from 6 to 12 months.

Product composition: HA 24 mg/ml, Lido 0.3%

Dermalax Deep Plus

1 syringe × 1.1 ml per pack

Needle size: 27G
