Product Description

Rejeunesse Deep :

Rejeunesse is a 100% cross-linked high-density skin filler. Product was created using the unique UPHEC purification technology, which contributes to a significant reduction in the level of endotoxins. In addition, there is no residual BDDE in the filler. These factors make the product safe for patients since they minimize risk of allergic reactions and edema. Procedure lasts more than 12 months.

Strengths of Rejeunesse:

non-animal hyaluronic acid

no residual crosslinker

long-lasting

painless of procedure

Rejeunesse Deep with lido is used in the correction of medium to deep sized imperfections of the face via mid to deep dermis injection.

Rejeunesse Fine

Rejeunesse is non-animal-based dermal filler created by unique UPHEC technology. This technology makes filler safe for patients by reducing endotoxin (less than 1.2 EU/mL) and the absence of residual BDDE. So filler has a high level of purity. The absence of animal products reduces the risk of an immunogenic reaction.

Thanks to its unique technology, Rejeunesse has a lifespan of more than 8 months.

Strengths of Rejeunesse:

non-animal hyaluronic acid

no residual BDDE

long-lasting effect

painless of procedure

Rejeunesse Fine with lido is used in the correction of fine to medium-sized imperfections of the face via superficial to mid dermis injection.

Scope of Rejeunesse Fine:

Rejeunesse Shape

Rejeunesse is a dermal filler based on hyaluronic acid of non-animal origin. The uniqueness of the product lies in the complete absence of the residual crosslinking agent BDDE, which is often provoking an allergic reaction. An 8-fold purification technology makes the product resistant to biodegradation and creates a dense gel with a reticulation degree of 11%. Thanks to the highly organized lattice structure, the filler fills voids of different sizes, and the effect lasts up to 12 months.

Strengths of Rejeunesse:

does not cause swelling and allergic reactions

long-lasting effect

natural effect

painless of procedure

Rejeunesse Shape with lido is used in the correction of deep sized imperfections of the face via deep dermis to subcutaneous injection.

Scope of Rejeunesse Shape:

deep wrinkle repair

modeling the volume of the cheeks and cheekbones

face contour correction and neck contour restoration

filling the lack of volume in the tissue

augmentation and alignment of the contours of the lips

The duration of the effect of 8-12 months.
