Product Description

Product Description :

Features and Scope

Audrey M Filler has medium viscosity and elasticity. It is mainly applied to the deep nasolabial folds in the face and shows excellent results when administered to the various body parts for contouring and augmentation. Treatment usually takes 30 minutes. According to the size of the treatment area, the injection time usually takes 15 minutes to 1 hour. AUDREY M FILLERS can last up to 8-12 months. Their effects are visible immediately, or depending on the individual, it might take about 2-3 days. However, some redness and swelling may occur at the injection site and will be gone after a few days. You can also apply ice packs to the injection site to help reduce redness and swelling.

Packaging and Specifications

AUDREY M FILLERS come in varying quantities from 1.1 mL pre-filled syringes to [3 mL](#) and [10 mL](#) syringes. The most considerable amount is packaged in a 50mL vial. Audrey M with 0.3% Lido Fillers come in 1.1mL syringes and varying quantities upon order.

Audrey Fillers are manufactured with a differentiated core technology that makes them one of the finest hyaluronic acid fillers in the market. With their numerous beneficial points, they quickly become a favorite among beauty enthusiasts. For one, they are designed to constantly maintain elasticity in the body with their pure, concentrated, animal-free derived hyaluronic acid component. Ostin Bio ensures that Audrey Fillers combine all the qualities a hyaluronic acid-filled gel needs: Safety, Efficacy, and Sustainability.

Audrey Fillers produces comfortable and smooth injections during the procedure.

They have garnered international certifications (GMP, ISO 13485, and COA) and are recognized globally for their safety and effectiveness.

They display outstanding sustainability, producing long-lasting effects.

Audrey Fillers also demonstrate excellent volume effect because of their hyaluronic acid gel formulation with a high hydrophilicity ratio.

They exhibit superior tissue adhesion with high cohesion compared to other fillers in the market.

Audrey Fillers have low endotoxin levels and a minimal residual cross-linking agent.

Audrey Fillers have a reversible effect as they can be completely dissolved with a dissolving solution called hyaluronidase.

They are known for showing fewer side effects and hypersensitivity reactions than other dermal fillers.
