The Red Red Fat Soluble Ingredients Introduction:

Vitamin B12: in the form of coenzyme, can increase the utilization of folic acid and promote the metabolism of carbohydrates, fats and proteins
Metabolizes fatty acids, making fat, carbohydrates and proteins suitable for use by the body
Bromelain: It can catalyze the cleavage of peptide bonds in protein molecules, decompose proteins, peptides, lipids and amides, and has anti-inflammatory and anti-edema effects.
Lecithin: Decomposes large excess particles of fat, replenishes acetylcholine, and replenishes energy
