Product Description

Product Description

• Placentex® 5,625 mg / 3 ml injectable solution - 5 vials 3 ml

PLACENTEX

Placentex 5,625mg/3ml (Polydeoxyribonucleotide, PDRN), a deoxyribonucleotide polymer used for rejuvenation and anti-inflammatory properties that helps to heal of cutaneous wounds, boosting of neocollagenesis of photo aged skin, moisturizing dry skin, burned scar repair, lighten skin tone and skin regeneration of the cells.

Uses

Restores skin function, skin structure, regains the inherent elasticity for facial skin, smooth and glossy and smooth wrinkles.

Heal wounds, bruises, perennial acne scars effectively and quickly.

Balance moisture and improve skin tone, brighten skin naturally, not "peeling and bleaching".

Maintain healthy, radiant pink-white skin for a long time thanks to salmon DNA ingredients and nutrients that will nourish the skin from deep within each cell.

Extremely safe and does not cause any irritation to the skin, including sensitive skin.

User manual

Inject under the face twice a month Or needle

Use 1 tube of Placentex 5,625mg / 3ml for 1 injection.

Note: the injection dose may depend on each person's condition and location, it is best to consult a doctor before long-term use.
