Product Description

Ascorbic Acid Vitamin C 500mg is a water-soluble vitamin, is essential for the formation of collagen which is the connective tissue of our skin, bone, ligament, tendons, joint and organ support.

The advantages of taking vitamin C injection is:

Aims in producing Collagen, which is the connective tissue of our skin, bone, ligament, tendons, joints and organ support.

Suppress the formation of 'Melanin' contributing to dark spots after long exposure to UVA/UVB.

Reduce our facial and skin fine lines or wrinkles. This is because it aims in producing collagen, which is important to make our skin firm and provides elasticity.

Reduce the appearance of pimples/acne/blemishes and minimise pores. Improves the skin smooth texture.

Prevent scurvy, which is a kind of vitamin c-deficiency.

Increase body immune system. A higher dose is believed to have the property of antihistamine.

Ingredient:

Active ingredient: Ascorbic acid 10g

Inactive ingredient: EDTA Sodium 5mg
