Product Description

remodelling and treating skin laxity, not just for filling lines and wrinkles. Profhilo H+L is to be used in areas affected by skin laxity such as the malar and submalar areas of the face. Profhilo H+L nourishes the dermal cells and restores the firmness of the skin. Profhilo H+L improves tissue quality significantly, even in challenging areas, and complements other aesthetic treatments and dermal filler procedures.

The pack consists of:

1 x 2ml syringe

Benefits of Profhilo:

Improvement in tissue quality

Skin remodelling

Treatment of skin laxity

Restore skin firmness

How long does the result last for?

Results are instant from the first treatment. In general, results will last from 6 to 9 months and even up to one year depending on individual skin type factors, such as age, and lifestyle.
