- Ascorbic Acid 500 mg/2 ml
- Great anti-oxidant properties that aids in prevention of cell damage
- Help enhance body's production of collagen
- Act as a booster for Glutathione & Thiocctic acid
- Boost & strengthen immunity
- Effectively shortens duration of symptoms of common cold
- Treatment of Scurvy (Vitamin C deficiency disease)

The advantages of taking vitamin C injection is:

Aims in producing Collagen, which is the connective tissue of our skin, bone, ligament, tendons, joints and organ support.

Suppress the formation of 'Melanin' contributing to dark spots after long exposure to UVA/UVB.

Reduce our facial and skin fine lines or wrinkles. This is because it aims in producing collagen, which is important to make our skin firm and provides elasticity.

Reduce the appearance of pimples/acne/blemishes and minimise pores. Improves the skin smooth texture.

Prevent scurvy, which is a kind of vitamin c-deficiency.

Increase body immune system. A higher dose is believed to have the property of antihistamine.

Ingredient:

Active ingredient: Ascorbic acid 10g

Inactive ingredient: EDTA Sodium 5mg
