Active Ingredients

Botulinum Toxin Type A

L-methionine

Polysorbate 20

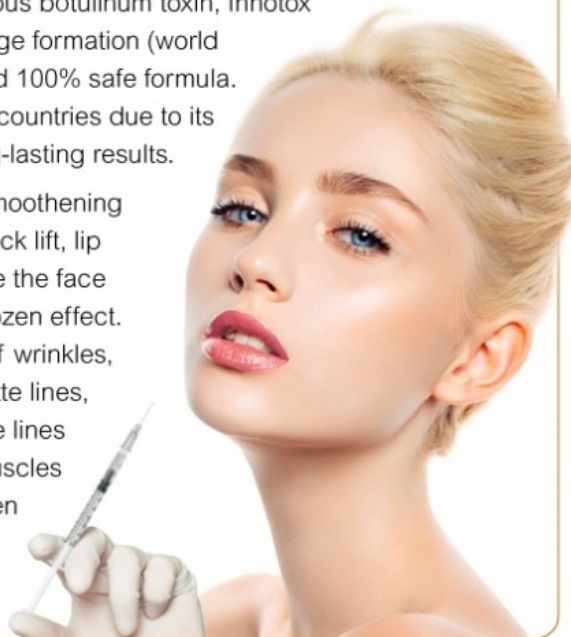

Ph 7.0 Buffered Saline

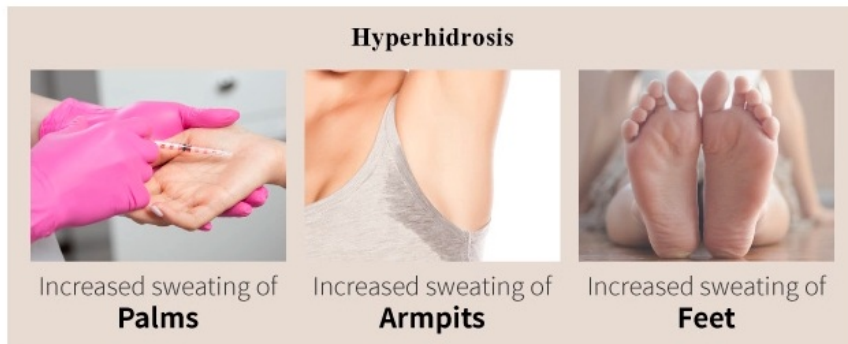

What is Innotox

Innotox is an innovative type A botulinum toxin, developed by the South Korean company Medytox Inc.

Unlike the world famous botulinum toxin, Innotox comes in liquid dosage formation (world first) and an improved 100% safe formula. It is popular in many countries due to its ease of use and long-lasting results.

Innotox is used for smoothening wrinkles, face and neck lift, lip contour, and to shape the face without giving that frozen effect. Helps in getting rid of wrinkles, bunny lines, marionette lines, chubby chin, and fine lines by de-nerving the muscles of the area it has been injected in.
