Basic Information

- Place of Origin: Korea
- Brand Name: Maxyfill
- Certification: CE
- Model Number: 70CC
- Minimum Order Quantity: 1box
- Price: 89USD
- Packaging Details: box
- Delivery Time: 1-3 work days
- Supply Ability: 1000box/month

Product Specification

- Product: Maxyfill
- Spec: 70cc
- Application: Body Filler
- Weight: 0.30kg
- Model: Maxyfill-70
- Function: Breast Enhancement

Product Description

MAXY FILL is a Hyaluronic acid body filler used for tissue augmentation. It is recommended to be used for shaping the contours of the body and for the correction of folds and mid and/or deep depression of the skin. It should be injected into the deep layer of the dermis and/or the surface layer of the subcutis.

MAXY FILL could be perfectly dissolved through effect of hyaluronidase when the problems faced by increasing the cross-linking rate. Even though patients have unsatisfied results after injection, MAXY FILL can be completely removed by injecting hyaluronidase. That's because it is strong against natural hyaluronidase inside human body.

MAXYFILL HA Body Filler 70CC is a high-end, non-invasive body filler designed for precise and targeted cosmetic treatments. It features a perfect balance of viscosity and cohesiveness, ensuring that the product impacts only the intended areas without diffusion. This unique property makes it an ideal choice for localized cosmetic improvements, providing durable results without the need for anesthesia.

Key Features of MAXYFILL HA Body Filler 70CC:

Targeted Action: Ensures that the treatment affects only the intended area, thanks to its optimal cohesiveness and viscosity.

Natural Results: The filler is designed to leave minimal marks post-injection, maintaining the natural appearance of the skin.

High Purity: Manufactured using the latest biotechnological advancements, this filler guarantees high purity and effectiveness.

MAXI FILL Benefits:

- the product acts locally in the injection area because of optimal viscosity and cohesiveness
- the procedure is non-intrusive, does not need an anesthesia and promote long-lasting effect

high quality and purity of the product is reached by application of the latest biotechnological methods
the marks of injections are almost invisible even right after the procedure

Product name	Maxyfill bodyfiller
HA Composition	20mg/ml
Particle size	1,000~1,200µm
