

## Meditoxin Botulinum Toxin Type A 100iu 200iu

### Basic Information

- Brand Name: Meditoxin
- Minimum Order Quantity: 1
- Price: USD 60/box
- Packaging Details: box
- Delivery Time: 1-3 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 pcs/month

### Product Specification

- WhatsApp: +86-18132165209

## Product Description

MEDITOXIN 200U is a formulation of botulinum toxin type A, which is commonly used in both medical and cosmetic applications. Botulinum toxin is a neurotoxic protein produced by the bacterium *Clostridium botulinum*. It works by blocking the release of acetylcholine at the neuromuscular junction, leading to temporary muscle paralysis. This property makes it useful for treating various conditions, including muscle spasms, excessive sweating (hyperhidrosis), and for cosmetic purposes such as reducing the appearance of wrinkles.

[Botulinum A, or Meditoxin](#), was created by Medy Tox Korea Limited and was approved by the KDA in 2004. It was found to be superior to Botox.

[Effects remain for 4-6 months after starting Meditoxine treatment](#). Another treatment should be administered following this one.

Meditoxin is remarkably similar to American Botox, both in therapeutic activity and structure. However, there is a distinction. It is based on Meditoxin's relatively poor penetration into surrounding tissues. Meditoxin is suitable for usage in delicate locations because to its minimal diffusion. For example, around the eyes or lips.

Meditoxin's botulinum toxin has a large molecular weight. Meditoxin allows you to work out areas with little, imitation wrinkles. He acts lightly and attentively.
