Product Description

Triple Action Skin Vitality Restoration The Hydra Pen H5 combines EMS microcurrent with essence infusion technology to deeply rejuvenate your skin. This dual-action system stimulates collagen production, repairs damaged skin, and enhances serum absorption directly into the dermis for superior results.

-Speed Intelligent Penetration for Precise Skin Repair With 6 adjustable speeds and a customizable needle length (0-1.0mm), the H5 Microneedling Pen offers precise control to target a variety of skin concerns, including fine lines, wrinkles, acne scars, and stretch marks, ensuring deep hydration and comprehensive skin rejuvenation.

User-Friendly LED Display & Smart Pause Function The H5 features an intuitive LED display for easy adjustment of speed and serum output. Its smart pause function lets you halt the treatment without losing your settings, providing a safe, convenient, and hassle-free skincare experience.

ersatile Solution for Multiple Skin Issues This microneedling pen effectively addresses various skin issues such as discoloration, large pores, fine lines, wrinkles, and stretch marks, delivering improved skin texture and a more even complexion.

Multiple Color & Needle Options Available In stylish gold and blue-white, the H5 is compatible with 5 different needle types: 12-pin, 24-pin, 36-pin, Nano-S, and Nano-R. The package includes 12 replacement cartridges (10 x 12-pin and 2 x nano round), offering tailored solutions for your diverse skincare needs.
