Product Description

Radiesse (+) 1.5ml is a transparent, sterile, injectable gel made of calcium hydroxylapatite particles and the anesthetic Lido. Inject Radiesse (+) 1.5ml with Lido into wrinkles to restore a smoother appearance to aging skin, into areas of facial fat loss to restore volume, or into hands to reduce the looks of visible veins and bones. Only authorized personnel in accordance with local regulations should administer Radiesse (+) 1.5ml with Lido injections.

The packaging content:

One 1.5ml prefilled syringe

Packaging insert

Traceability labels

Ingredients:

Synthetic calcium hydroxylapatite suspended in a gel carrier with lido

Benefits:

Radiesse (+) 1.5ml with Lido offers longer lasting results when compared to hyaluronic acid fillers; results can last up to a year or more. This product is also particularly suited to correct more severe wrinkles and folds as it possesses better volumizing properties. Supplemented with lido, treatment with this product can now be a more comfortable experience for your patients.
