Product Specification

- WhatsApp: +86-18132165209
- Highlight: Revolax SUB-Q dermal filler, hyaluronic acid filler 1.1ml, Revolax Lid filler with warranty

Product Description

The Revolax product is made from purified HA and its gel is monophasic in structure – an advantage, when compared to most filler brands, as its structure is more durable to the enzymes of the body and thus, its effects are more lasting. Revolax Sub-Q will last 6 months more, on average, compared to most other sculpting filler brands.

The filler has a very high concentration of HA – 24mg/ml. Considering how powerful it's effects on the skin are, it is no wonder this is an excellent anti-age product. While using synthetic HA, the substance itself is natural to the human body, with capability of retaining many times it's own weight of water, is completely safe and biodegradeable.

Revolax SUB-Q has the thickest properties within the product line. With its advanced ability to mold, maintain structure and longevity, it is recommend for treatment of deep sized to extremely severe wrinkles including nasolabials and face (cheek, chin, or nose) contours.

REVOLAX™ SUB-Q is a biodegradable, non animal based, crosslinked dermal filler for subcutaneous implantation..
