Product Description

Maxyfill Sedyfill Linefill Bonetta Vom Line Body Filler Celosome

SEDY FILL benefits

SEDY FILL provides a quick and long-term effect of non-surgical intervention, which avoids a number of complications such as scarring.

SEDY FILL is a crystal clear gel based on purified stabilized hyaluronic acid obtained by a biotechnological method.

SEDY FILL does not require anesthesia, as this contouring procedure is painless

SEDY FILL - body filler, which contains anti-aging ingredients, thanks to which the procedure naturally prolongs the youthfulness of the skin

SEDY FILL Efficiency

A single application of **SEDY FILL** provides an effect lasting 12-15 months, and with delicate care up to 2 years. The gel, which is biologically compatible with the human body, gradually dissolves in the process of metabolism. To ensure the effect for a longer period and to maintain the aesthetic result, it is possible to repeat the procedure.

spec

Duration	6~24 months, 6-18 months, 6-18months, 8~12 Months

Revolax Fine: This is the Hyaluronic Acid with the lowest viscosity, it is the best for smoothing small lines on the face, neck and body. It eliminates the first signs of ageing and prevents wrinkles deepening. Works like hydration for the skin. It lasts between 6 to 9 months.

Revolax Deep: is a hyaluronic acid gel with medium viscosity. It efficiently fills in wrinkles and folds on the skin and works well on the deep dermal layers

Duration period of 8 to 10 months.

Revolax SUB Q: is designed to fill the volume of areas on the face. It is the best for deep wrinkles, skin folds, huge lips with a lot of volume and facial contouring. This hyaluronic acid gel is the thickest, compared to all the other Revolax products. It can last from 10 to 14 months.

How does the treatment work?

The treatment can be done in 15 minutes but it can also take longer, depending on the area to be treated.

The professional in charge of your treatment injects the product using an ultra-thin needle under the surface of the skin. For fine lines, the product is injected at the surface of the skin. For marked wrinkles, the injection is made at a deeper level.

Please note that the injection of Juvéderm Ultra requires a medical gesture that can only be carried out by a doctor (doctor specialised in dermoesthetics, dermatologist or plastic surgeon).
