Product Specification

- WhatsApp: +86-18132165209
- Highlight: 60cc hyaluronic acid filler, Sedy Fill body filler, injection filler with warranty

Product Description

Sedy Fill 60cc is an injectable body filler that mainly uses for non-surgical correction of body shape. It is composed of cross-linked hyaluronic acid, that is produced through a unique HENM technology.

Sedy Fill body filler can be used to correct various body areas, including non-surgical correction of breast shape and size, replenishment of buttocks volume, recovery of soft tissues after liposuction, and legs shape correction. The aesthetic effect of the filler lasts for 12-15 months.

The filler is known for its local action, which means that it only acts in the injection area. This is due to its optimal viscosity and cohesiveness.

The high quality and purity of the product are achieved through the use of the latest biotechnological methods. This ensures that the product is safe to use and has minimal side effects. Additionally, the marks of injections are almost invisible, even right after the procedure.

Product Composition

Product composition: HA 20 mg/ml

Contained – 60cc

(1 bottle x 60 ml per Box)
