Product Description

1. Working Theory

The 40K fat breaking device is developed with the advanced fat reducing concept and technological theory. The 40k cavitation slimming device produces ultrasonic up to 40K Hz which penetrates skin deeply to trigger strong impacts and violent friction motions among fat cells. By blasting fat in this violent way, the device helps users to lose fat quickly.

2. Application

Strong wave of 40KHz will be emitted to body for impacting cells fiercely and results in friction motion among fat cells, which will cause calories consumption and smaller the size of fat cells. Furthermore, large number of fat cells will explode immediately due to intensive impact and wave vibration, then quantity of fat cells are significant decrease.
