Product Description

Cytocare 516 is a balanced blend of moisturizing and regenerating ingredients that improve the condition and appearance of the skin, make it smoother, taut, well moisturized (also from the inside) and are great at delaying its aging. The effect of its use is the skin that looks fresh, young and very healthy - free of wrinkles and well-plumped. Cytocare cocktail is recommended for use on the skin of the face, neck, cleavage and backs of hands, where the signs of skin aging are the earliest and most intense.

Indications

- Accelerating the regeneration of skin cells
- Stimulation of fibroblasts to produce collagen (responsible for skin elasticity), which slows down its aging
- It improves the skin tone, giving it radiance and sensational, easily noticeable radiance
- Antioxidant properties (i.e. antioxidant properties, having the ability to neutralize free radicals)
- Moisturizes the epidermis and helps to maintain the water balance in the skin
- Revitalizing the skin by providing it with essential nutrients

Composition

- Hyaluronic acid (16mg)
- Vitamins
- Amino acids
- Inorganic salts

Cytocare 532 is a resorbable implant composed of hyaluronic acid and a rejuvenating complex. Cytocare 532 is designed to be injected into the mid-deep layer of the skin dermis to fight the skin's ageing process and reduce fine lines and wrinkles. Cytocare 532 also restores the hydration, tone and elasticity of the skin and improves radiance.

The pack consists of:

- **10 vials x 5ml**
- **32 mg hyaluronic acid**

Benefits of Cytocare 532:

Fights the skin's ageing process

Reduce fine lines and wrinkles

Restore skin hydration, even tone and elasticity

Improve radiance

How long does the result last for?

In general, treatments need to be repeated every 3 months. The duration depends on the individual's lifestyle, age and skin type.

Cytocare 640 C line is a revitalisation solution composed with hyaluronic acid.

Cytocare 640 focuses on anti-aging. It can promote the production of subcutaneous collagen and elastin, and promote the vitality of cells that affect the quality of adipose tissue, so as to achieve the effect of plumping, firming and lifting

The pack consists of:

5 vials x 4ml

Benefits of Cytocare 640:

Restore skin hydration, even tone and elasticity

Skin revitalisation

How long does the result last for?

In general, treatments need to be repeated every 3 months. The duration depends on the individual's lifestyle, age and skin type.

Cytocare 715 C Line is designed to prevent premature ageing with a high concentration of hyaluronic acid. 715 C Line is designed to be injected into the mid-deep layer of the dermis to treat fine lines and wrinkles.

The pack consists of
5 vials x 5ml
75mg hyaluronic acid

What are the benefits of CytoCare 715 C Line?
Replenish skin hydration and moisturises the skin
Create and enhance a radiant glow
Delay the appearance of fine lines and wrinkles
Restore skin elasticity

How long does the effect last for?
In general, treatments need to be repeated every 3 months. The duration depends on the individual's lifestyle, age and skin type.
