Product Description

Nano Needle Injection Spray Meos Gun For Painless Injections Mesotherapy Gun

1.What is it?

No needle mesotherapy vanadium titanium injecting gun (wrinkle removal mesogun) adopts advanced processing technology to make an innovation on the injector. Different from mesotherapy guns that use needles, we use a microchip with multiple pins to deliver nutrition and essentials, which can be reached to subcutaneous layer under high pressures from the pistol.

Use the wispy needle of the micro crystal head to penetrate into the cuticle of skin, opening the pore of the epidermal layer of skin, injecting the active ingredient of nutrition. Therefore, it can repair aging skin and reborn collagen, remove wrinkles and spots, improve skin complexion and lift face.

Functions:

1. Moisturizing And Hydrating
2. Improving complexion
3. Tightening and lifting skin
4. Remove fine lines and wrinkles
5. One injection treatment= 1 thousand times facial mask

---Skin rejuvenation ,wrinkle removal and pigmentation removal
---Skin tightening,Enhance skin metabolism, anti-aging
--Activation of collagen cells, enhancing skin elasticity and gloss
---Remove facial fine lines and crow's feet, plain word lines ,etc

Advantage:

---Applicated for endogenous and exogenous injection
---Injection technology which can speed up the treatment process
---Easy to operate, no side effects, but significant effect
---Adjustable injection depth, doses, speed and suction intensity.
---Anti-backflow technology applicated for medicine and blood.
----Stimulate the skin for self-healing, promote skin metabolism

Treatment process:

---Anesthetics
---Fresh-keeping film
---Facial cleaning&disinfection
---Put medicant inside the three-way valve before injection
