

## Kabelline Lipolysis Fat Solution Slimming Lipolytic

### Our Product Introduction

#### Basic Information

- Place of Origin: korea
- Brand Name: Kabelline
- Certification: ce
- Model Number: KB- C
- Minimum Order Quantity: 1 box
- Price: \$60-\$65
- Packaging Details: 5\*8ml
- Delivery Time: 1-3 Days
- Payment Terms: T/T, Western Union, Western Union, MoneyGram, credit card, paypal
- Supply Ability: 100000box

#### Product Specification

- Efficacy: Weight Loss & Slimming
- Name: Kabelline Lipolysis Slimming Solution Injection Lipo Lab
- Feature: Kabelline Fat Melting Solution
- Capacity: Phosphatidylcholine 1000mg/Deoxycholate 5mg/L
- Usage Mode: Injection
- Used Aged: 18-60
- Function: Fat Slimming
- Form: Liquid
- Recommended Protocol: 3~6 Sessions At 7~10 Days Interval.
- Used For: Beauty Medical Clinic
- Pain Level: Mild To Moderate
- Cost: Varies Depending On Treatment Area
- Duration Of Results: Long-lasting
- Suitable For: Men And Women

- Deoxycholic acid, an FDA approved fat dissolving material and human bile acid, a metabolic byproduct of human intestine bacteria.

In the human body, deoxycholic acid is used in the emulsification of fats for the absorption in the intestine.

#### Deoxycholic acid.

- Deoxycholic acid is US FDA approved fat dissolving material and a human bile acid, a metabolic byproduct of human intestine bacteria.
- In the human body, deoxycholic acid is used in the emulsification of fats for the absorption in the intestine.

Contouring Serum for localized fat reduction

01 Upregulates Lipolysis, inhibits Lipogenesis

02 Can be applied to every parts that have fat

#### spec

product name	Kabelline
package	5 vials in one box
size	12*7*3cm
weight	0.4kg/box
raw material	phosphatdylcholine :purity 99.8% made in germany
sidium deoxycholate purity	98% made in japan
particles	50-70 nanomicros ,a size smaller than a cell special sterile technique
main ingredients	phosphatidylcholine 100mg
Feature	Kabelline Fat Melting Solution
Name	kabelline Slimming Solution Injection Lipo Lab

#### What is Kabelline?

Contouring Serum.

- Kabelline is a contouring serum to improve the appearance and profile of moderate to severe fat on the face or body.
- Kabelline provides natural and facial line by inducing the decrease of redundant lipids or fat on the face or body.
- Kabelline is a homeopathic product, indicated as a co-helper for treatment of obesity in all of its forms and manifestation as well for the most common dyslipidemias that tend to accompany the obesity problem.

Deoxycholic acid is a fat dissolving material and a human bile acid, a metabolic byproduct of human intestine bacteria.

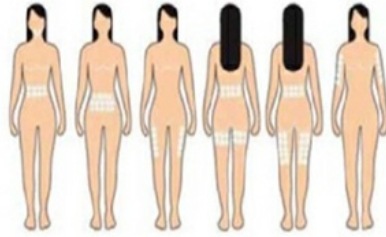

In the human body, deoxycholic acid is used in the emulsification of fats for the absorption in the intestine.

Deoxycholic acid effectively breaks down fat cells, while the procedure pain is minimized and less side effects were found.

Kabelline draws H<sub>2</sub>O and adipocytes burst from the inside. Unwanted fat cells are naturally biodegraded and emitted through lymphatic duct or macrophage.

Then fat can't be accumulate again and lipogenesis is blocked.

## Application & Method

1. Shake ampule to mix PPC that is sunk at the bottom of ampule
2. Use 18G needle to extract PPC from ampule and use 27G needle to inject on the target area
3. Mark injection points on each target area with pen
4. Injection manuals according to each target area

Target areas	Injection points	Space between each point	Injection quantity / each point	Total ampules /target areas
Abdominal areas	About 125 points	1 cm	0.7~0.8cc	8~10 ampules
Fatty back	About 100 points			6~8 ampules
Black low in fat	About 75 points			4~6 ampules
Both forearms	About 38 points each both forearms			4~6 ampules
Both thighs	About 50 points each both forearms			6~8 ampules
Chin		0.5 cm	0.5cc	

### 5. Injection intervals

(1) 1 week-interval: You inject today, second injection is after a week.

(2) 2 weeks-interval to repeat same target area injection.

You inject on Abdominal area today, second injection area is any other area except abdominal area after a week.

You can inject on Abdominal area AGAIN at Third injection.

So, injection interval of same target area is 2 weeks.

## Instruction For Use

Injection area:

Double chin, waist, arms, legs, belly

Depth of Injection:

3-5mm into fat layer. (Usually for 3-4mm deep for face, and 4-5mm deep for body.)

Way of injection:

It needs to be injected into the subcutaneous layer. The distance between each injection points should be around 10mm. Each injection point need 0.2-0.3ml for face, while 0.3-0.5ml for body.

## Areas & Effects

Double Chin

Armpit, upper arm

Back

Abdomen, side  
(Love handle)

Thighs

Face

- ✓ No treatment for bean allergy patients
- ✓ PPC, which is the main component of Lipd Lab, does not only treat subcutaneous fat, but also muscles nerves, and blood vessels
- ✓ Pigmentation or lump in the treatment area is healed naturally within 2-3 months
- ✓ Do not use in areas where there is a wound or eczema and dermatitis (This symptom is normal reaction of PPC, so you can take an analgesic heat medicine (Tylenol).
- ✓ Patients with heart, diabetes, cancer, stroke and arteriosclerosis
