

## Vmax Hifu Ultrasonic Radar Body Tightening Skin Care Face Lifting Beauty Wrinkle Removal Anti-Aging Beauty Equipment

### Our Product Introduction

for more products please visit us on [hadermal-filler.com](http://hadermal-filler.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Radar
- Model Number: Electric V face neck
- Minimum Order Quantity: 1
- Price: \$200-\$220
- Packaging Details: box
- Delivery Time: within 24h after paid
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram/paypal/ Bitcooiin
- Supply Ability: 50000000 pcs/month

#### Product Specification

- Products: Radar Anti Aging Machine Hifu Face Lifting Machine
- MOQ: 1 Piece
- Type: Radar Beauty Machine
- Highlight: **HIFU ultrasonic face lifting machine, RF beauty equipment for wrinkle removal, Vmax body tightening anti-aging device**

**Radar Anti Aging Machine Hifu Face Lifting Machine Wrinkle Removal Skin Tightening Hifu Machine**

### Our Pro

#### RADAR LINE CARVING FUNCTION PRINCIPLE

With the good tissue penetration of mechanical laser, the thermalenergy of 45-65°C can be accurately transmitted to the skin (SMAS)layer.(about 3.0mm/4.5mm) It can effectively stimulate fibroblaststo divide new cells at a speed of 40 times per second, dissolvefacial fat cells, tighten skin contour, stimulate collagen regeneration.and achieve rapid face slimming and firming effect.

#### Functions

- 1.Facial Lifting
- 2.Firming Skin
- 3.Anti-aging
- 4.Anti-wrinkle
- 5.Nourish the skin
- 6.Improve skin elasticity

#### Advantage

1. V-MAX Ultrasound focuses energy shortly and intensively on the target area while rubbing probe, it makes less pain than other machine.
2. Various shot intensity, shot time and shot interval can be adjusted by user's purpose. As applying rubbing operation, reducing shot and interval time, operation time can be shorter than normal Ultrasound operation. These shorter operation time enables to do more operations and it helps to get good results rapidly.
3. V-MAX doesn't need maintenance cost which mostly made by cartridge changing. It reduces medical expense and increases competitiveness. And it helps to do additional treatment without big burden.
4. By adopting a probe-rubbing method which is not widely used in Ultrasound equipment, it is possible to perform detailed operation near cheek-bone.
5. Water cooling system enables to give stable operation, though a long time working.
6. Unlimited shots, no need to replace the head!

Model NO.	ALS193
Application	Salon, Home
Portable	Portable
Description	V Max Hifu Machine
Function	Face Lifting,Wrinkle Remover
Technology	Hifu---High Intensity Focused Ultrasound
Treatment Area	Face Neck Body
Feature	Skin Tightening,Wrinkle Remover Wrinkle Remover
Category	RF Equipment
Power Source	Electric
high-Concerned Chemical	None
Power	100W
