Product Description

Plasma Pen for Remove Spot/Pigment/Scar Surgical Cautery Pen Spot Removal Beauty Machine

Theory:

This is a portable beauty instrument face care rotary brush for home or personal use. It is suitable for all types of skins. By using brushes to clean the skin, the brush will automatically circumscribe when approaching skin and clean the grease, black head, make-up remnants and dirt.

The purpose of the Facial Brush Machine is to slough off the dead cells (exfoliate) and to remove any dirt and grime that clings to the surface of the skin. Before any brushing procedure the skin must be cleansed. The face is vaporized or steamed with warm towels to soften the dead surface cells so that they can be more easily removed. It is important to use the rotary brush before commencing further treatment.

Features:

1. Gentle and suitable for all skin types.
2. Simulates blood circulation and cell metabolism
3. Brush rotates in both clockwise and counterclockwise directions
4. Prepares the skin to better absorb skin care products
5. Deep cleans and exfoliates the skin
6. Considerate protection cap as accessory to avoid massage head from scratched to protect vibration and consume battery electricity when touched carelessly.
7. Nice looking and ergonomic design, easy to use.

Functions

1. Gently Face & Body Microdermabrasion Cleaning: Remove dead cell on the skin surface
2. Improve skin care product absorption
3. Improve blood circulation
4. Smooth skin texture, skin refresh
5. Suitable for daily use
6. Easier to apply the makeup (foundation....) on the skin to achieve nature and smooth skin texture
