## Product Description

VOM fillers are a line of hyaluronic acid-based dermal injectables developed . They use patented "R-square" multi-layered phasic technology to deliver a highly consistent gel that reduces swelling, and migration during treatments. The VOM product series is primarily used for facial contouring, wrinkle correction, and restoring skin volume, The VOM Lineup

VOM V: The lowest viscosity option; ideal for fine lines, superficial wrinkles, and subtle lip enhancements.

VOM O: A moderate-density filler, often used for moderate wrinkles and deeper hydration.

VOM M: The highest density and elasticity; specifically designed for deep volumizing in areas like the nose, chin, and jawline.

What You Should Know

Longevity: Results typically last between 6 to 12 months depending on the specific formula and the area being treated.

Name	Restylan lyft revolax/juvederm
