Product Description

Wholesale Rejeunesse Hyaluronic Acid Filler for Wrinkle Reduction

Rejeunesse:

Fine:

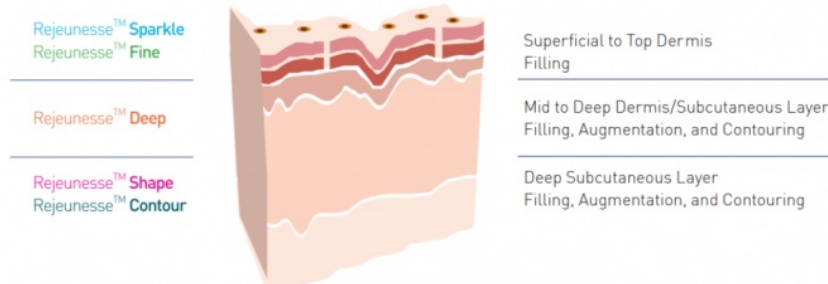

Rejeunesse Fine with Lid is used in the correction of fine to medium sized depression of the face via superficial to mid dermis injection.

Deep:

Rejeunesse Deep with Lid is used in the correction of medium to deep sized depression of the face via mid to deep dermis injection.

Shape:

Rejeunesse Shape with lid is used in the correction of deep sized depression of the face via deep dermis to subcutaneous injection.

What Rejeunesse HA filler can do for you?

1. Correct wrinkles, folds, and scars

Gently smooth away the visible signs of aging and skin imperfections. This formula works to diminish the appearance of deep wrinkles, expression lines, nasolabial folds, and even stubborn scars, restoring a more even, refined texture to your skin.

2. Make lips more sensual and voluminous

Enhance the natural beauty of your lips by making them appear fuller, softer, and more defined. Achieve a subtly sensual, plumped look without the need for invasive procedures — lips feel smooth, hydrated, and irresistibly attractive.

3. Sculpt and shape the contours of your face

Restore definition to your jawline, cheekbones, and overall facial structure. This product helps lift and firm sagging areas, creating a more youthful, heart-shaped contour that enhances your natural bone structure and facial harmony.

4. Hydrate, plump, and rejuvenate your skin

Infuse your skin with intense, long-lasting moisture that reaches deep beneath the surface. As hydration levels increase, fine lines are visibly reduced, and skin becomes noticeably plumper, softer, and more resilient — revealing a fresh, rejuvenated complexion.

Specification

Model	Particle Size	HA Conc.	Lid	Injection Depth	Needle	Duration
Rejeunesse Fine	Small	24mg/mL	0.3%	30G	Superficial dermis	8–12 months
